

PROFESSIONAL SUMMARY

Senior iOS Developer with extensive experience architecting, developing, and shipping **16+ commercial iOS applications to the Apple App Store**. Deeply skilled in Swift, SwiftUI, UIKit, Combine, asynchronous concurrency (async/await, GCD), StoreKit 2 monetization, offline-first local persistence, and real-time cloud synchronization. Adept at creating fluid 60/120 FPS UI animations adhering to Apple Human Interface Guidelines (HIG), optimizing memory performance with Xcode Instruments, and ensuring rigorous security and COPPA privacy compliance.

TECHNICAL SKILLS

- iOS & Languages:

Swift, SwiftUI, UIKit, Objective-C, TypeScript, JavaScript (ES6+), HTML5/CSS3, Python
- Apple Frameworks:

StoreKit 2 (IAP/Subscriptions), Core Data, Combine, Vision / Core ML, UserNotifications (APNs), LocalAuthentication (Face ID), AVFoundation, Security / Keychain
- Architecture & Patterns:

MVVM, Coordinator, Clean Architecture, Reactive Programming, Offline-First / Caching, Native Bridge Plugins (Capacitor/React Native)
- Cloud & Backend:

Firebase (Cloud Firestore, Functions, Auth, Storage), Real-Time WebSockets, RESTful APIs, Node.js
- DevOps & Tooling:

Xcode, Instruments (Time Profiler, Allocations), TestFlight CI/CD, App Store Connect, Git/GitHub Actions, XCTest

IOS ENGINEERING EXPERIENCE

- Florithm LLC — Lead iOS Software Engineer & Founder

2023 – Present | Fremont, CA
- 0-to-1 iOS App Delivery:** Architected, built, and launched 16 production iOS apps on the App Store across FinTech, Productivity, Education, and Lifestyle, achieving rapid execution and 99.9% crash-free sessions.
 - StoreKit 2 & Monetization Architecture:** Integrated native StoreKit 2 workflows for auto-renewable subscriptions, consumables, and non-consumable lifetime passes with receipt validation and entitlement management.
 - Real-Time Offline-First Sync:** Built high-efficiency mobile data pipelines using Cloud Firestore, local caching, and optimistic UI mutations for instant feedback under intermittent connectivity.
 - Memory Profiling & Performance:** Leveraged Xcode Instruments (Allocations, Leaks, Time Profiler) to eliminate retain cycles, minimize CPU overhead, and guarantee smooth 120Hz ProMotion scrolling.
 - Hardware & Security Integration:** Implemented biometric Face ID authentication via LocalAuthentication, secure Keychain storage, camera pipelines with AVFoundation, and custom APNs push notification handling.
 - App Store Operations & Compliance:** Managed end-to-end App Store Connect deployments, TestFlight beta distribution, Apple Privacy Manifests, and strict COPPA compliance for family apps.

FEATURED IOS PRODUCTION APPS & ARCHITECTURAL HIGHLIGHTS

The Family Bank — Kids Money & Allowance Bank

Finance · EdTech · Cloud Sync

Virtual banking simulation teaching kids compound interest, chore bounties, and financial habits.

- Automated Compound Interest Engine:** Engineered daily interest calculation algorithms crediting ledgers based on parent-defined APY.
- Multi-Device Real-Time Pairing:** Built a 6-digit cryptographic hardware pairing flow linking child devices without requiring email or login credentials (COPPA compliant).
- Chore Approvals & StoreKit:** Built real-time parent verification workflow and integrated StoreKit lifetime family unlock.

PlanCrew — Group Chat & Planning

Social · Productivity

Collaborative event planning and group chat platform for crews.

- Engineered real-time chat with threaded replies, reactions, and media caching.
- Built interactive calendar event planning, itineraries, and shared checklists.

My Color Palette: AI Stylist

Fashion Tech · Vision AI

AI-driven color analysis categorizing users into 12 seasonal palettes.

- Implemented client-side colorimetric analysis analyzing skin tone and undertones.
- Built custom palette visualizers and offline-ready wardrobe tools.

Nexus — Career Discovery

Education · Career

Psychometric orientation tool utilizing the Holland Code (RIASEC).

- Designed a 36-question scoring engine mapping personality traits to career paths.
- Built animated radar charts and personality breakdown screens.

Sparkling Joy & TapTapTask

Lifestyle · Gamification

Mindful decluttering companion & family task rewards systems.

- Implemented category-by-category workflows, milestone rewards, and streaks.
- Engineered gamified task rewards with customizable goal progress meters.

APP STORE PORTFOLIO (16 PUBLISHED IOS APPS)

Domain	Production iOS Apps on Apple App Store
Finance & Family	The Family Bank (Kids Money & Allowance Bank)
Productivity & Tools	ScheduleAround, TapTapTask, Countdowns (Visual Timers), Intervals (Count-up Timer), Plateful+
Fashion & Creative	My Color Palette: AI Stylist, Profile Picture Maker: Avatars
Education & Literacy	Nexus (Career Discovery), RightRead (K-6 Leveled Books), Phonics Cards (5,000+ words), Read with Booki
Social & Games	PlanCrew (Group Chat & Plans), Fleet Keeper+ (Space Arcade), Fish or Bait (Retro Survival), Am I a Narcissist?
